|----------------------------------------------------------------------------------|-------------------|-----------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Overall Status | Yellow | Yellow | The overall status for the project remains Yellow due to delays caused by the Payroll Accrual solution, Integrations (NSHE and Campus) and Financials Reporting. Please refer to the detailed status below. SCI and NSHE team members are testing the solution. Workday continues to adjust the solution based on feedback from this testing. The testing of Payroll Accrual and PERS Reduction solutions will continue thru August 11 th . |
| ✤ Overall | Green | Green | НСМ |
| Status – Functional | Green | Green | Payroll |
| Lanes | Green | Green | Time Tracking |
| | Yellow | Yellow | Financials: Overall Status remains Yellow based on i) status of Budget configuration (delayed due to Payroll Accrual); ii) status of reporting (delayed due to Payroll Accrual); iii) SReg and iv) Award Cleanup. Other functional areas remain green. The focus for the following week is on P4 testing, report and NSHE SReg development. |
| | Green | Green | Audit |
| ♦ Overall Status – Technical Team | Yellow | Yellow | Integrations (NSHE): A few NSHE integrations are behind schedule but are being finalized and are in unit testing. Full end-to-end testing will occur during P4. |
| | Yellow | Yellow | Integrations (Campus): Several campuses currently have integrations at risk. The PMO is monitoring the status weekly and will continue to work with the campuses until resolved. |
| | Green | Green | Conversion (Financials) |
| | Yellow | Yellow | Reporting: Several baseline financial reports have been developed. The HCM team has completed the prioritization of their custom reports. This will better position the reporting team to complete the remaining body of critical and high priority reports. |

Key Accomplishments

| Area | Accomplishment /Activity | | |
|------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--|--|
| НСМ | 1. Core HCM | | |
| | a. Configuration: Addressed the following tickets: Updated IJF/JFG is not Medical Resident or Skip step if Primary Recruiter is unassigned condition rule. The change made to the condition rule was to make it an "or" condition between the two items (WCR-428), Added Help Text to Change Job business process (WCR-367). The details can be found in JIRA. Answered Tickets that didn't result into any changes. b. Conversion: Working Conversion JIRA tickets reported by the SME Validation team. The team started the week with 64 conversion tickets. We are closing the week with {} tickets. The SCI are working on CNV-618 and CNV-449. c. Conversion: Mike and Jeff are working through Error Report Issues and P4 Build Programmatic Issues. 2. Benefits: Configuration: Addressed the following tickets: Details can be found in JIRA. | | |
| | 3. Recruiting: Configuration: Referral Sources for Recruiting were edited so that Facebook and Twitter are no longer mapped to the Workday delivered functions, similar to LinkedIn; this stops the requirement for name and email to entered by the applicant. Ticket was approved and closed (WCR-355). Copy Candidates functionality reviewed and approved - testing occurring by institutions; ticket was closed because functionality cannot be configured, it is simply enabled (WCR-365). Questionnaire has been created with only one question for Criminal Convictions Disclosure. Two steps were also added to Offer BP to require candidate to answer said questionnaire, and for Primary Recruiter to review answers. Configuration has not yet been tested in NSHE5 (WCR-399). Moving candidates in Job App BP is still not functioning correctly; note that configuration has not and will not change, we are researching options and have filed a case with Workday | | |

| Area | Accomplishment /Activity |
|-----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Area Time Tracking | Accomplishment /Activity to look into routing security (WCR-400). Notifications to Offer candidates edited to cater to offer versus contract (WCR-408). No updates were made to configuration, but text block changes from June can now be tested as part of the Faculty/Post Doc offer letter testing (WCR-409). Ticket has been reopened because Primary Recruiter should not go unassigned; however, Job Requisition BP will be left incomplete. Therefore, a possible solution will be tested in NSHE5 for a critical custom validation to fire if a Primary Recruiter is not assigned (WCR-422). Offer letter header templates updated; workaround for addendums put into Offer BP so that each addendum is delivered in a separate inbox item; advanced routing for Reviewers of Offer Letter does not function properly - workaround is to notify these roles that they may simply need to review twice; all of these solutions were approved and are now being tested (HCM-295 and 296). See Jira tickets for more details. Absence |
| | determining the timing of those alerts as part of the Payroll Processing Checklist meeting in Las Vegas. JIRA Tickets: Multiple tickets (HCM, Testing, Conversion, Change Mgmt.). Daily monitoring of tickets is ongoing upon completion. Troubleshooting, reconfiguration, retesting and fixing of assigned tickets & FAILED scenario tickets; Completing open |
| | tickets from End to End testing, and any issues from UAT testing. Configuration: Enter Time Rounding change to 6min w/2min breaker per HRAC. End to End testing the new rounding configuration with success. Meetings: HCM Conversion, Cross Functional Meetings, Parallel Payroll, Project Checkpoint, Cutover Planning, Time Tracking Weekly Meeting, AccuTime Weekly. |
| Payroll | 1. PERS Reporting - SCI has provided logic for attaching the PERS code to a run result to support PERS reporting. |

| | g. | Met with Grants and SA staff on EPSCOR and other state budgeted grant |
| | 0 | setup and reporting. Demo/example to be jointly developed. |
| 5. | . Assets | |
| | a. | Troubleshooting UAT Testing & UAT support - three scenarios did not kick |
| | | off asset registration. |
| | b. | Deactivated Worktag solution. |
| | с. | Research for ledger mappings and legacy data conversion. |
| | d. | JV for Balance Conversion 50% complete. Should finish for test load into |
| | | NSHE 5 next week and then into NSHE 2. |
| | e. | Encumbrance for asset purchase being reconfigured to accommodate |
| | | Workday's fix This must be configured by 07/14/17. We need agreement on |
| | | the change to one ledger account for equipment. Met with Tazeen & |
| | | completed mapping verification. Schools are mapping Improvements to |
| | | "Improvements other than Building" but they are reported as Land |
| | | Improvements on FS. Do we need to change the name on this ledger |
| | | account for reporting? |
| 6. | . Projects | |
| | a. | UAT Testing support. |
| | b. | Project training document approved. |
| 7. | . Customer A | Accounts |

| Area | Accomplishment /Activity |
|-----------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | a. Completed configuration changes provided by Workday for workaround of |
| | Bad Debt Write-off in NSHE10. Subsequent testing in NSHE10 revealed no issues and workaround eliminates confusion. This is resolved and JIRA FIN- 2107 has been closed. Config changes will be made to NSHE2 as well. |
| | b. Continued analyzing WD delivered reports and need for custom reports to |
| | separate out Sponsor data from Customer data (FIN-1023). Met with Grants report writer to possibly leverage reports being developed by that team. |
| | c. Adequate progress in P4 UAT and Residual testing. Minimal concern with those scenarios not completed. Meeting with UNR Medical School the week of 8/7 and 8/14. |
| | 8. Expenses |
| | a. Worked on clearing FIN-Projects - Expense Jira Tickets and TCH Jira Tickets. |
| | Submitted two reports for Residual - End to End Testing. Still waiting on update for 3 additional reports. |
| | 9. Grants & Effort |
| | a. Continuation of Award Clean-up. |
| | b. Submitted billing schedule and A/R customer invoice EIB. |
| | c. Meetings with SA to discuss set up of their awards with sub awards. |
| | 10. Procurement |
| | PCard UAT testing began this week - 1 issue ID'd reported to WD when splitting a transaction line. |
| | b. 1st integration of Supplier files from Advantage D-dup'ed. |
| | c. Validation of 1st Advantage PO conversion file was validated - it looked |
| | good. |
| | d. UAT testing is ~38% complete. |
| | e. Residual testing is 98% complete. |
| | 11. Suppliers |
| | Completed working session for SMEs to facilitate cleanup of duplicate suppliers. |
| | b. P4 Supplier Accounts test Scenarios complete - Need to add PayMode test. |
| | c. All FIN's and TCH have been reviewed. |

| | Western Insurance Remittance. |
| | b. Thomas and Mack has completed the SFTP set up in order to automate the file |
| | transfer of their Time data for Payroll Input. |
| | c. Completed development on the logic changes for |
| | PEPB Payroll Input integration. The new logic assumes that the file is always |
| | going to be late and will now process on-going deduction changes starting with |

| Area | complishment /Activity |
|-------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| | the second payroll of the month and do a one-time adjustment in the second payroll for deductions or credits that should have occurred in the first payroll.d. Completed development on the Employee Deductions to PERS integration. |
| | Reporting |
| | a. Custom reports completed and ready for unit test since last week: <i>i.</i> R171 (TCH-1850) Standard Insurance Remittance – HCM – CR (NSHE) |
| | ii. R184 (TCH-2089) 415(m) Enrollment/Termination – PAY – CR (NSHE) |
| CM/Outreach | CM-Communication |
| | a. Supported Train the Trainer in Las Vegas. |
| | b. UAT Scenarios developed, assigned and calendar set for SA UAT activities. |
| | c. Getting Started activities and prep for UAT sent to all UAT testers for SA. |
| | d. Posted updated job aids to the online NSHE Workday training repository. |
| | Met individually with NSC, CSN, and UNLV to discuss campaign email app, expectations, timelines, and strategy at the institution- and system-levels. |
| | f. Drafted a series of posters focused on awareness, engagement, and education |
| | for training kits and college campuses. |
| | g. Supported UAT help desk. |
| | Training |
| | a. Curriculum job aid development continues. There are currently over 100 job |
| | aids created. |
| | b. Train the Trainer occurred in Las Vegas 7/18 - 7/19. Representatives from all campuses except UNR participated. UNR was previously scheduled for UAT activities. Participants included trainers, Training Liaison reps, SMEs, and designees. |
| | OKTA was configured in NSHE8 by the SCS team and Security project team (Derek and John) Last step is to activate the 'spokes' to the campuses - this is to happen by 8/1. |
| | Linda has met with campuses and finalized training dates. Class invitation template and campus training checklist was reviewed and distributed. Campus are to begin sending out invites. |
| | Linda is developing a Security class. Requested Michael Baker's assistance. Taryn advised that she assist with the class. |
| | Testing |
| | Meetings: Participated in various meetings with FIN, HCM, Payroll and Tech teams, SMEs, TLGs and PoCs. |
| | b. Team Support: Worked with the consultants, leads, designees, and BAs with current testing. |
| | c. Campus Support: Provided support to the Campus Testing Coordinators as they continue UAT. |
| | d. Continued loading P4 Residual End to End test scenarios. |

| TCH- 2074 | Loading of Worker Locations is needed for testing OKTA Identify Management | High | Michael Bakker | 18-Aug-17 | For identity management, most campuses would need to segment users based on location. This means that worker location within Workday needs to be assigned to test out these processes. Today, workers are defaulted to a location. The technical team will create an EIB to load the worker locations into Workday and close this item when it is ready for the campuses to update. | |

| TCH- 2015 | SReg is behind Schedule | High | Steve Creswell | 18-Aug-17 | A decision was made to deploy a UNLV version of SREG rebranded for NSHE. This is a stop-gap measure until the NSHE SREG can be completed and deployed. The team is working on a transition plan to move from the temporary to the NSHE version of SREG. This will close once the NSHE version of NSHE is delivered. |
| FIN- 1732 | Payroll Accrual | Highest | Leslie Obourn | 11-Aug-17 | The team is testing the product updates and Workday is delivering updates on 7/28. |
| HCM- 297 | Payroll Parallel Testing to be Actively Monitored | Highest | Leslie Obourn | 25-Aug-17 | P4 Parallel testing has begun and the following actions are in place to ensure we stay on track: 1) Daily checkpoints. 2) All variances to be researched are assigned to specific team members. 3) Additional staffing was added and trained. |
